Upon signing in to NIHMS, you will see your Manuscript List. To begin a new submission, click the “Submit New Manuscript” button.
There are three methods you can use to supply the journal and title information for your manuscript.

1. **Option 1. Enter the manuscript and journal titles**
   - **Manuscript Title**
   - **Journal Title**

   **Option 1 - Input Manually:** Type the manuscript and journal titles manually. Once you start typing a journal title, a drop-down list will appear to suggest possible options based on your input. You can either select a suggestion or keep typing to refine the list of results. If no suggestion matches the title of your journal, complete the manual entry.

2. **Option 2. Search for citation in PubMed**
3. **Option 3. Find citation in My NCBI Bibliography**

![Click to view more options](Image)
Option 2 - Search PubMed: This option allows you to search PubMed by PMID, manuscript title, or author name(s). Once you input the string you want to use, click search for a list of results. Select your publication from the results list. The results list also indicates whether the manuscript was previously submitted by the publisher or is already in PMC.

Option 3 - Import from My Bibliography: If you have a bibliography in My NCBI, you can select this option to browse your bibliography and select the publication from there. If you are not currently logged in through your My NCBI account, you will be prompted to do so upon selecting this option.
Once you have entered the title information or selected the publication, click "Add Funding" to proceed to the next step.
Add the relevant funding information by selecting the relevant grant from the suggested items (associated with your account) or searching by the PI's name and/or grant/project ID number.

When you start typing a grant/project ID, a drop-down list of potential candidates will appear. You may either select one of these suggestions if you see the relevant grant or complete the manual input of the grant/project ID.

After you have entered the applicable funding support, click the "Upload Files" button to proceed to the next step.
Upload your manuscript files here. You may submit your manuscript all in one file or as separate files for each component. If providing separate files, please upload each file as the correct Type (i.e., use Manuscript, Figure, Table, or Supplemental, accordingly).

</tbody>
</table>

Add another [Manuscript, Figure, Table, Supplemental]
Please also provide unique and descriptive labels for each file. The labels will help determine the proper placement of the materials in the PMC-ready documents, so clear labeling is important.

Use these links to add additional file fields as needed.

After you have added all of the relevant files, click the "Check Files" button to proceed to the next step.
Please review the PDF Receipt, which summarizes the information entered into the system and merges the files into one viewable document. Once you have confirmed that all files, including supplemental material (displayed as placeholders) are included, click the "Set Reviewer & Embargo" button to proceed to the next step.
As an author or PI on the manuscript, you are not required to select another author to review this submission and approve it for processing; you can do so yourself.

However, if you would like to set another Reviewer, please provide his/her name and e-mail address here.

If you are proceeding as the Reviewer, please set the embargo that is required by your publisher, and then click "Approve" to proceed.
Review of NIHMS submission statement

Submission Statement

Manuscript Title: Test Submission
Accepted for Publication in: Test Journal

I am an author of this manuscript, and I am providing it to the National Institutes of Health (NIH) to make publicly available in PubMed Central 12 months after its official date of publication in the journal.

I confirm that:

Publication and Copyright Agreements — In any agreements that I have made with the journal, I have retained the right to deposit this version of the manuscript with PMC, so that it may be appropriately tagged and I am legally authorized to deposit this information that must not be publicly disclosed prior to publication of the paper in the named journal.

Peer Review — The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting from the peer review process.

Funding — The manuscript was prepared using funds made available by direct costs funded by NIH.

If you need to go back to change the embargo, click the "Change Release Date" button.

If for any reason you disagree with the Submission Statement, click "Disagree" and submit a comment so we can assist you.

Otherwise, click "Agree" to finalize your approval, and we will begin processing your submission.
Please note the information provided in the confirmation summary, and then take a moment to review the next steps so you will know what to expect. At any time you can sign in to NIHMS, find this submission in your Manuscript List, and view the updated summary to track the status of the submission.

**NIHMSID:** 16305  
**Release Delay:** 12 months  
**Reviewer:** Test Person

**WHAT'S NEXT?**

**Step 3**  
NIHMS staff reviews the approved files for completeness, and complete submissions are converted to archival XML. The PMC-ready documents (Web and PDF versions) are checked to ensure they accurately reflect the submitted files. Processing time for this step is usually 2-3 weeks but may vary depending on the volume of submissions at a given time. An e-mail notification is sent to the Reviewer when the record is available for final review.

**Step 4**  
The Reviewer reviews the PMC-ready documents (Web and PDF versions) and either requests corrections or approves them for inclusion in PMC. Final Approval is required to complete manuscript processing in NIHMS.

**Step 5**  
A PMCID is assigned when the manuscript is matched to a PubMed record with complete citation information. For details, see When will a PMCID be assigned to my manuscript?
