If you are an author or PI and received an e-mail asking you to sign in and review a manuscript submission that was initiated on your behalf, click on the access link in the e-mail to sign in and you will be directed to the manuscript awaiting your review (skip to Slide 3).

If you signed in without the access link included in the notification e-mail, you will not see the manuscript awaiting your attention; however, you can use the ticket number from the e-mail to access the manuscript record by clicking this link to the right of your Manuscript List.
Enter the ticket and click "Validate" to access the submission and begin your review.
Step 1: Start by reviewing the files. The PDF Receipt summarizes the information that the submitter entered into the system and merges the files into one viewable document for your approval. If all of the files are present and complete (all provided supplemental files will display as placeholders only), please check the box and move on to Step 2.

Step 2: If there is applicable funding that is not already listed here, please click "Add Grants" and link that funding to the submission (see Slide 4). ** If this project was not funded by any of the agencies listed on the NIHMS Funders page, please stop here and contact the NIHMS Help Desk. **

If there is a problem with the files uploaded for your manuscript, please reject the PDF.
Add the supporting funding information by either selecting the relevant grant from the suggested items (associated with your account) or searching by the PI’s name and/or grant/project ID number. When you start typing a grant/project ID, a drop-down list of potential candidates will appear. You may either select one of these suggestions if you see the relevant grant or complete the manual input of the grant/project ID.

Once you have filled in the search field(s), click "Search" to display the list of results.

At the results list, check the box in the “Select” column to add that grant/project to your list of funding support for the manuscript.

After you have entered all of the applicable funding support, click "Save" to proceed to Step 3.
Step 1. Review Deposited Files
PDF Receipt [2015-12-11 11:30:05, 175.4 KB]

Please reject the deposit if any files are missing.

By checking this box I certify that this manuscript submission includes all referenced figures, tables, and supplemental materials.

Step 2. Add or Review Funding
Funding support is required to approve the initial deposit.

Add Grants

Step 3. Reassign Reviewer
If you are not an author or PI or cannot complete the current review or the review of the PMC-ready documents version when they are available, please reassign to another Reviewer.

Step 4: Select the Embargo Required by Journal or Publisher
Release in PMC 12 months after publication in the journal.

Go to Manuscript List
Reject PDF
Approve

Step 3: An author or PI does not need to select a different Reviewer but can do so if it is preferable that a co-author or PI review and approve the material.

Step 4: If proceeding as the Reviewer, please set the embargo that is required by your publisher, and click "Approve" to proceed.
Review of NIHMS submission statement

Submission Statement

Manuscript Title: Test Submission
Accepted for Publication in: Test Journal

I am an author of this manuscript, and I am providing it to the National Institutes of Health (NIH) to make publicly available in PubMed Central 12 months after its official date of publication in the journal.

I confirm that:

Publication and Copyright Agreements — In any agreements that I have made with the journal, I have not retained the right to deposit this manuscript with PMC, so that it may be appropriately tagged and linked to the manuscript with PMC, so that it may be appropriately tagged and linked to the journal's website; or, I otherwise am legally authorized to deposit this manuscript.

Peer Review — The version I am depositing has been peer-reviewed and approved for publication in the named journal.

Funding — The manuscript is the result of research supported by NIH.

Please take a moment to read over our Submission Statement and certify that you have the rights to provide this manuscript for public access.

If you need to go back to change the embargo, click the "Change Release Date" button.

If for any reason you disagree with the Submission Statement, click "Disagree" and submit a comment so we can assist you.

Otherwise, click "Agree" to finalize your approval, and we will begin processing your submission.
Please note the information provided in the confirmation summary, and then take a moment to review the next steps so you will know what to expect. At any time you can sign in to NIHMS, find this submission in your Manuscript List, and view the updated summary to track the status of the submission.

### WHAT'S NEXT?

**Step 3**
NIHMS staff reviews the approved files for completeness, and complete submissions are converted to archival XML. The PMC-ready documents (Web and PDF versions) are checked to ensure they accurately reflect the submitted files. Processing time for this step is usually 2-3 weeks but may vary depending on the volume of submissions at a given time. An e-mail notification is sent to the Reviewer when the record is available for final review.

**Step 4**
The Reviewer reviews the PMC-ready documents (Web and PDF versions) and either requests corrections or approves them for inclusion in PMC. Final Approval is required to complete manuscript processing in NIHMS.

**Step 5**
A PMCID is assigned when the manuscript is matched to a PubMed record with complete citation information. For details, see [When will a PMCID be assigned to my manuscript?](#)
